

9.99% APR 5-Yr Loan

A Reduced Interest Loan (RIL) is just like it sounds — a lower interest rate loan that’s set up for a longer-term. Your customer pays back the RIL through easy monthly payments, helping them get the home improvement project they want right away. The RIL is half of your payment options one two punch (the other half is the Same-As-Cash Loan). These two choices should always be offered together, like peanut butter and jelly.
